

Wedding Make up & Hair

C H E C K L I S T

Planning Ahead

- Book your rehearsals for at least 3-4 months ahead of your wedding day.**

We tend to be very busy with weddings in the height of summer, so earlier in the year is always better for availability across the team.

We try to schedule your hair and makeup for the same day (where possible) to allow you to see the full look together and to start to see everything coming together for your big day.

- Gather as many images as you can of hair and makeup that you like ahead of meeting your team.**

This is so helpful for us to get an overall idea of your likes and dislikes and to get a picture of your personal style. Images of your dress, bridesmaids dresses , flowers and any accessories you may have are always welcome to help to envision your wedding day and create your hair and makeup look to suit.

- Book hair colouring and consider hair extensions.**

It may be necessary to purchase hair extensions to create the styles that you like and we can advise on a type to suit. Styles like Hollywood waves generally always need extensions to achieve the volume of the look and this can take quite a bit longer to achieve (usually 1.5-2hrs).

We usually only advise this style for brides with the extra time and prep needed, but our stylists can advise on alternatives for your bridal party.

- Think about lash & beauty options.**

We do include individual lashes for brides as part of our service. We can also help to advise on semi permanent lashes in our studio (Exeter city centre) if you would like something that lasts a little longer, or alternatives like lash lifts and tints.

We can apply any strip lashes that your bridal party bring along free of charge, do let us know if you would like any lash recommendations ahead of the day.

Other beauty services to consider: Tanning, nails and facials to ensure that you are wedding day ready. Beauty service bookings can be made via our website .

- Consider timings for the day....**

We tend to schedule 1hr each for bridal hair and makeup, 45 mins each for bridesmaids and 30-45 mins each for mums and grans.

Our hairstylists can help to advise on styles that can be created in that timeframe and can let you know if they would need longer for anyone with longer/thicker hair or for a more intricate style.

They can help keep things on track advising styles that are achievable on busy wedding mornings or if you have a large bridal party to get ready with.

If you or your bridal party have ideas for their hair and makeup, please do bring any images along to your rehearsal as it's great for us to get a feel for your day and to help when planning out your schedule for the morning.
